Journal

For this step in my senior project, my task was to complete my project and donate my donations that I collected. The weather, as I stated in my last progress report, was scheduled for rain and thunderstorms on the day of my project. As forecasted, it rained all day Saturday and Sunday. When I walked out to the field on Sunday morning, the field was unplayable. It would be so unsafe to host my event that day, and the rain that was still coming down didn't help my project at all.

I still stayed at the field until noon to collect donations. Surprisingly, a lot of people came and gave donations. Most of the people that came gave donations because they wouldn't be able to play the following weekend due to a tournament.

I donated the amount of supplies I received to the Boys and Girls Club on Monday and they were really happy about the amount of donations that people gave us. The donations weren't all used either. Some people even went to sporting stores and bought new basketballs, footballs, gloves, and boogie boards (I thought that was funny).

The only thing that I need to do left for my project is to actually perform it and donate more of the donations that I get!
